Introduction

01

SwiftForms is a powerful, UK-built digital forms and workflow platform designed to replace slow, paper-based processes with fast, intuitive, mobile-ready solutions.

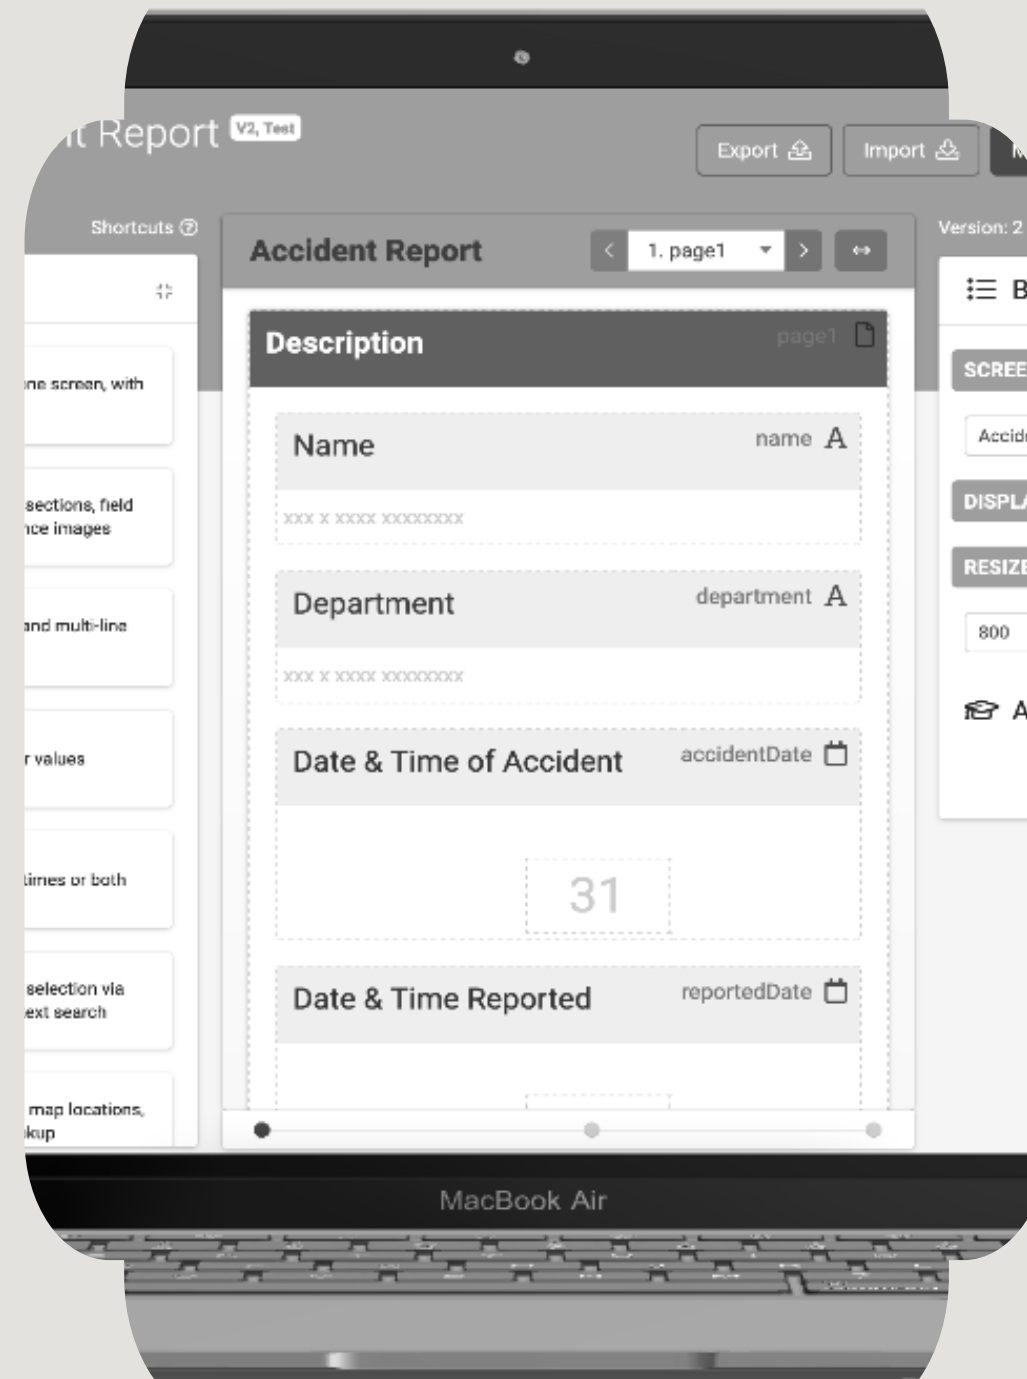

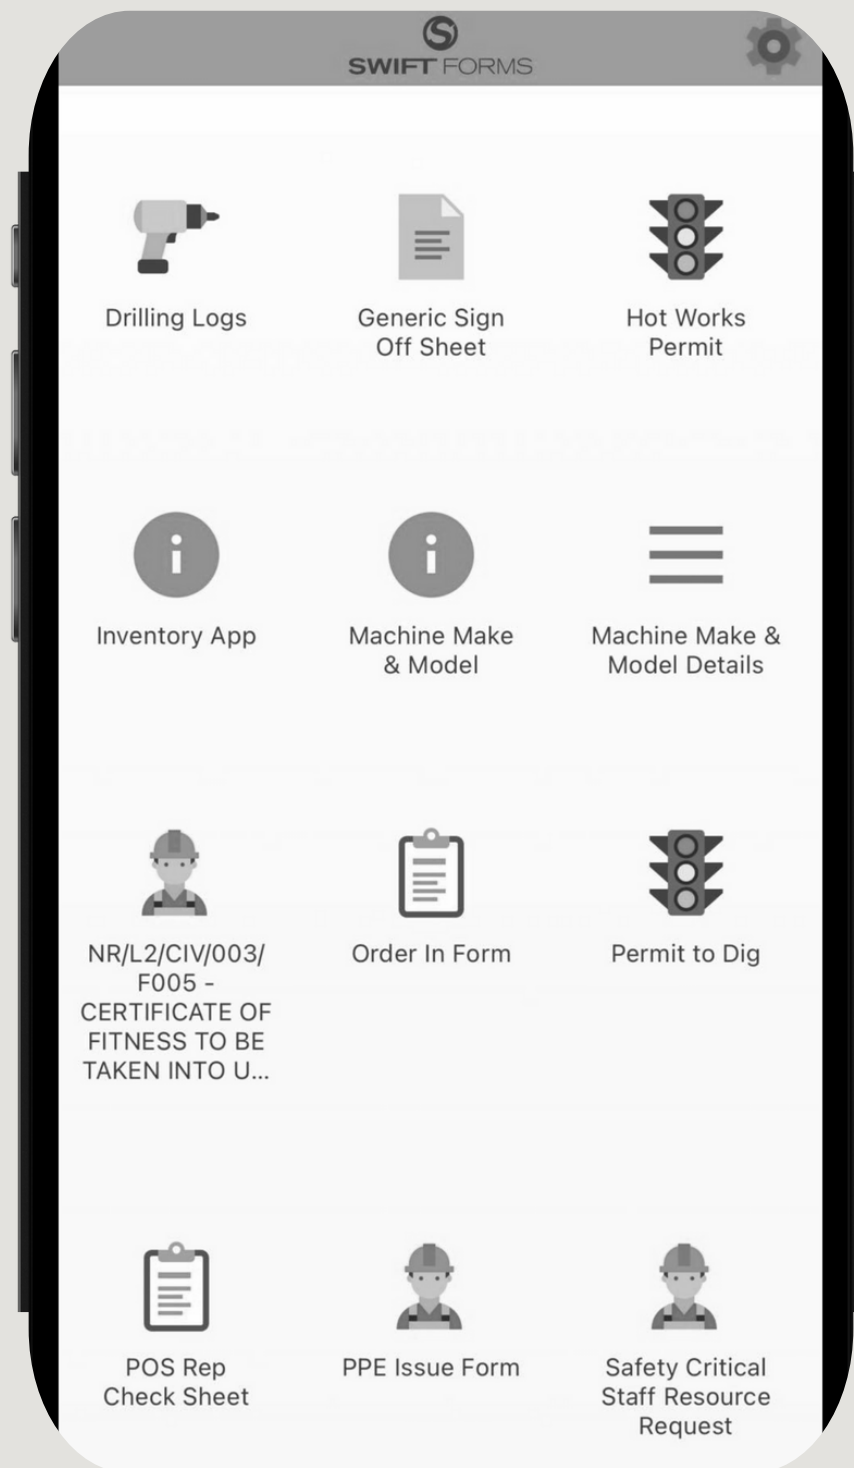

Whether you're capturing field data, managing jobs, completing inspections, or automating customer workflows, SwiftForms delivers a seamless, fully branded experience that works on any device.

With real-time dashboards, secure cloud storage, automated notifications, and flexible integrations, SwiftForms helps organisations streamline operations, improve accuracy, and save hours every week. Simple to deploy and easy to scale—SwiftForms turns everyday processes into efficient, professional digital journeys.

About SwiftForms

02

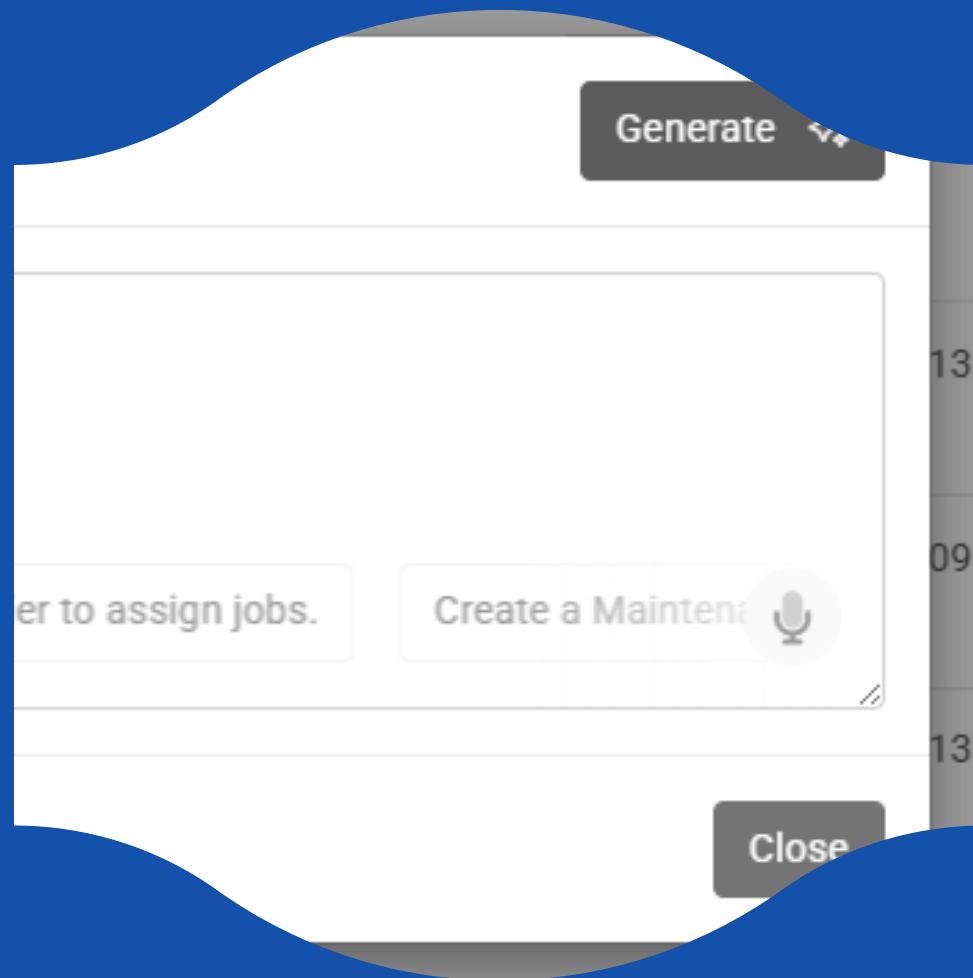

SwiftForms is a modern digital forms and workflow platform designed to transform how organisations collect, manage, and action information. Built with speed, flexibility, and usability in mind, it empowers teams to replace manual paperwork with smart, mobile-first forms that work anywhere — online or offline.

From inspections and checklists to job sheets, customer onboarding, audits, and field reports, SwiftForms streamlines every stage of the process. With secure cloud storage, automated alerts, real-time dashboards, and custom branding, it gives businesses complete control over their data and workflows. SwiftForms helps teams work faster, reduce errors, and deliver a more professional, efficient service every day.

STEP 1

THE USER ON THE GROUND FILLS IN THE FORM ON OUR EASY-TO-USE APP

STEP 2

THE SECURE SWIFTFORMS DATA SYSTEM CAPTURES THE ENTRY

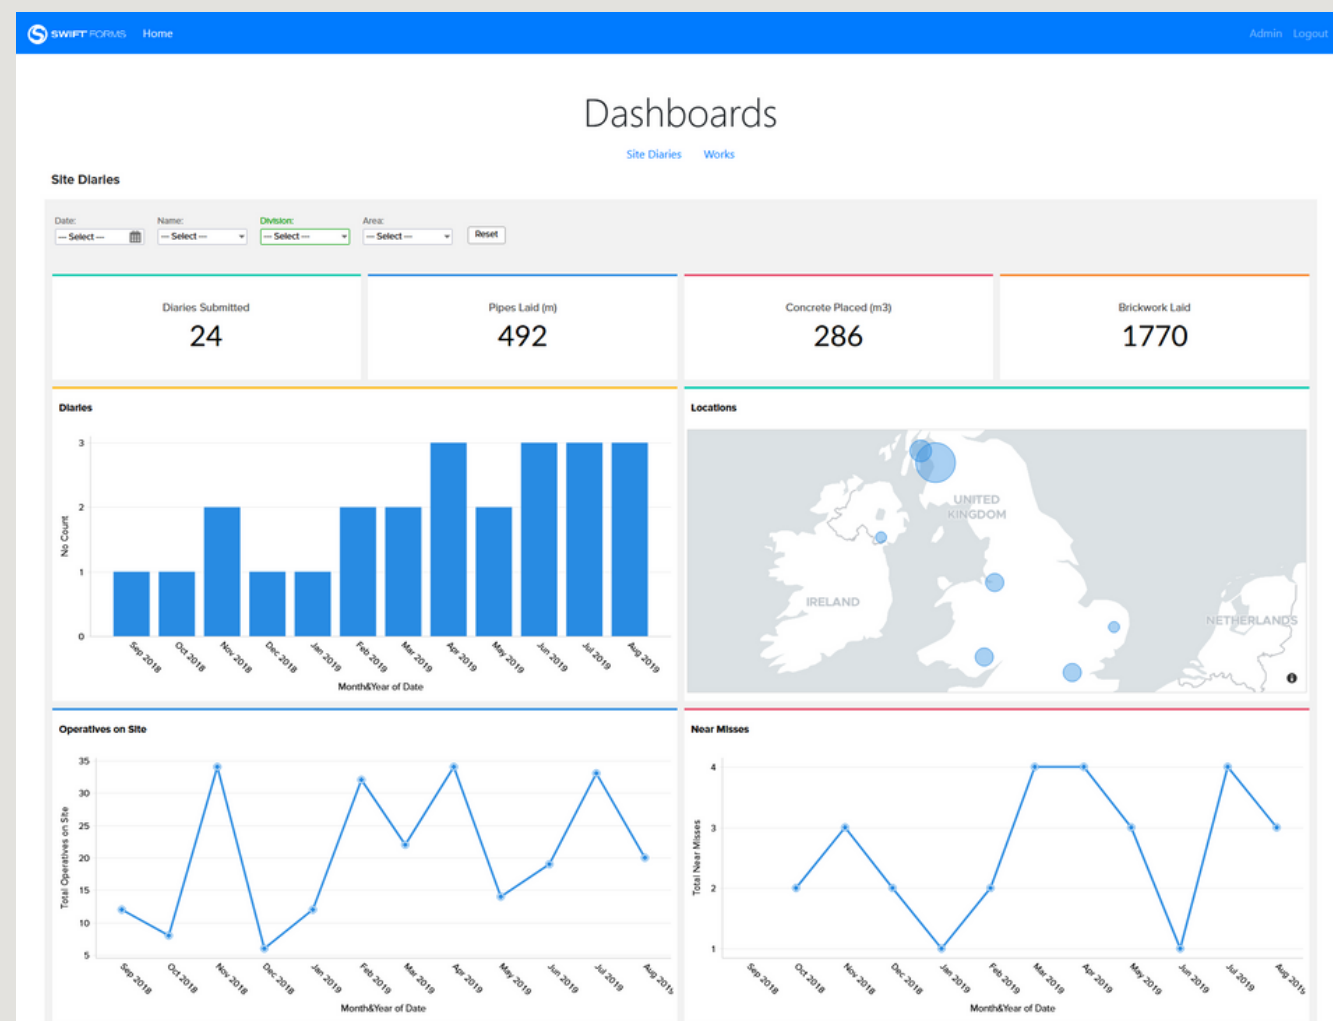

STEP 3

SWIFTFORMS AUTOMATICALLY DELIVERS THE DATA TO ANY OF A WIDE RANGE OF CONNECTORS IN THE FORMAT YOU REQUIRE.

Work with your data

05

The screenshot shows a mobile app interface for an 'Accident Report' form. The form is titled 'Accident Report' and has a '1. page1' tab. It includes a 'Description' section with fields for 'Name', 'Department', 'Date & Time of Accident', and 'Date & Time Reported'. The 'Name' field is labeled 'name' and the 'Department' field is labeled 'department'. The 'Date & Time of Accident' field is labeled 'accidentDate' and the 'Date & Time Reported' field is labeled 'reportedDate'. The form also has a 'Basic Properties' sidebar with options like 'SCREEN TITLE', 'DISPLAY PAGE NAMES TAB', and 'RESIZE IMAGES TO'. The app is running on a MacBook Air.

Through intuitive dashboards, we can present your data in a wide range of formats using colourful charts, heat maps, graphs and more. The format you need, to deliver on KPIs, and regulatory processes.

Our Approach

01

At SwiftForms, we believe digital transformation should be simple. That's why we handle the legwork for you. From initial setup and form design to workflow mapping, integrations, and staff onboarding, we take care of the technical details so you don't have to.

Our team works closely with you to understand your processes, convert them into efficient digital workflows, and ensure everything runs smoothly from day one.

The result? A fast, stress-free rollout that gets your organisation fully up and running with minimal disruption and maximum impact.

Join The Journey

FIRST WEEK

We work with you to understand your requirements. You get a full month free.

SECOND WEEK

We'll build the forms and begin testing.

THIRD WEEK

We'll ask you to get the ground staff to test.

FOURTH WEEK

We provide training and fine tuning, and continue to offer our expert service.
